THE COURSE

The distance is exactly three miles. The description that follows should be read in conjunction with the course map on the adjacent page.

The start is downhill for approximately 250 yards, but this is more than compensated for by the stiffest climb of the course lasting one-third mile. Just past the brow of the hill you turn right. The course is now fairly level with some parts that are even slightly downhill. But at one mile the course rises again. This climb is not as severe but is longer [about 700 yards] and brings you to the Jamboree Stone. Those who know the relay courses at Sutton Park may be tempted to turn right for home at this point. Sorry! The course continues ahead and downhill for a quarter of a mile to the turning point. Once round the cones not only you heading for the finish but you have completed just over half distance.

You now pay for the downhill section with the uphill return to the Jamboree Stone where you are guided to the left. Then follows about half-a mile of downhill running, that levels out as you draw alongside Keepers Pool on your left. As you leave the Pool there's just half-a-mile to go. You continue straight ahead – no left turn, old hands.

From here the course is undulating but mainly uphill. If you are not totally focused on your running you could look to your right with a quarter-mile to go and see the announcers bus. The final sharp right-hand turn follows a brief downhill section, from there the finish is just 150 yards away, sub 30 seconds for some. Not many of you will notice this but the final yards are downhill.

CAUTION

You are in a Public Park, so please respect other users. In particular, please do not leave litter in the Park.

Also please show courtesy to the competitors at all times, who are racing, and stay well clear of the centre of the roads and the inside of corners. If walking/running the course clockwise please keep yourself aware of competitors coming from behind you.
